Turn up the Heat. Not the Oil.

The GFII Air Fryer is a revolutionary countertop cooking appliance designed for commercial use. Utilizing a combination of forced hot air and radiant heat, it efficiently cooks and browns a wide array of "oven-ready" convenience foods without the need for traditional frying oil. This innovative technology provides a healthier, safer, and more cost-effective solution for food service operations.

Health-Conscious Products: Eliminates the health risks associated with hot oil cooking, producing lower-fat food options that retain excellent taste and texture.

Versatile Performance: Capable of frying, grilling, and baking a variety of frozen, oven-ready food items, including french fries, egg rolls, corn dogs, battered vegetables, cheese sticks and more.

User-Friendly Interface: Equipped with an intuitive LCD touch screen control panel, making it easy to operate and customize cooking settings. Use the USB port feature to import and export recipes to multiple units!

Preprogrammed Recipes: Comes with 15 preprogrammed recipes with customizable time and temperature settings to suit various food items.

Recipe Customization: Easily edit and customize recipes via the LCD controller, including time and temperature settings.

Real-Time Monitoring: Displays cooking progress, current oven temperature, and other essential parameters for precise control.

Safer for your Employees: Cool to the touch exterior, and no grease eliminates the mess and hazards of deep-fat fryers!

Easy to Operate: You don't need a culinary trained chef or cook to produce crispy and delicious menu items!

Specifications

Dimensions: Width 21 Inches, Height 13.5 Inches, Depth 20 Inches.

Weight: Approximately 62 lbs (28.1 kg)

Shipping Dimensions: Length 26 Inches, Width 25 Inches, Height 19 Inches, Weight 68 lbs (30.8 kg)

Electrical Requirements:

USA:

120V 60HZ 20AMP (5-20R NEMA Plug)

208-240V 60HZ 30AMP (14-30P NEMA Plug)

Receptacle:
NEMA #5-20R

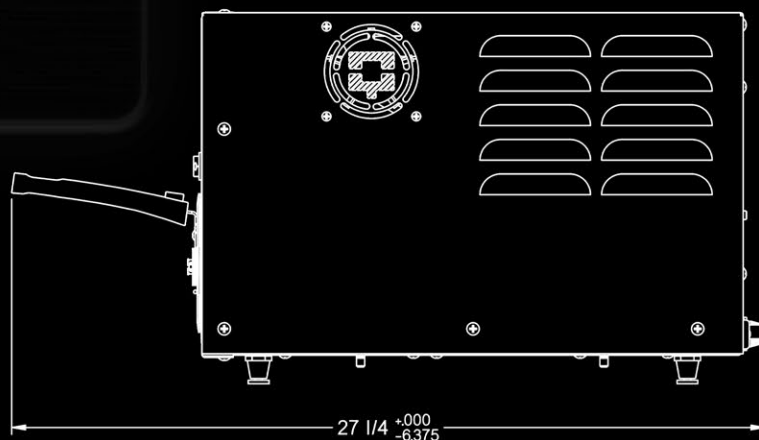

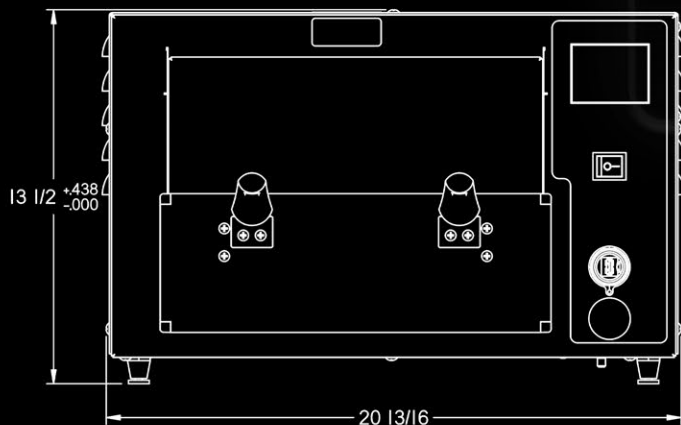

20A 120V

Receptacle:
NEMA #14-30P

30A 208-240V

Fry Smarter. Serve Healthier.

Powered by air and radiant heat—no oil, no compromise
